Numb. 2322

WEDNESDAY, DECEMBER 1. 1742.

Rome, Nov. 17.

THE General of the Capuchins has lately delivered to the Pope Letters from the Miſſionaries of his Order in Thibet, according to which the Piety, Diſintereſtedneſs, and Contempt, that theſe Fathers have for the Goods of this Life, procure them very great Advantages in the Diſcharge of their Functions as Preachers of the Goſpel. They have not only gained the Confidence and Reſpect of the People in general, but are alſo ſo much in the good Graces of the Tipa, who is a Kind of Viceroy to the Grand Lama in Temporal Affairs, that it is preſumed they have in ſome meaſure brought him to have a good Opinion of the Chriſtian Religion; which might be the eaſier, if what theſe good Fathers ſay in their Letters be true, viz. that many Footſteps of Chriſtianity's anciently prevailing among theſe People are yet viſible. Amongſt theſe Letters there is one written to his Holineſs by the Tipa, on White Sattin, in which there are Abundance of good Things ſaid of the Capuchins: And he farther informs the Holy Father, that he has granted them Leave to preach the Goſpel throughout all Thibet. Baron Scarzi, the Emperor's Miniſter, has lately informed his Holineſs, That the Auditor of the Rota named by his Imperial Majeſty to ſucceed M. Thun the Queen of Hungary's Miniſter in that Office, will ſpeedily arrive here; which muſt neceſſarily produce a very great Diſturbance; becauſe it is pretty certain that M. Thun will not give place to him, as his Miſtreſs has not acknowledged the Elector of Bavaria for Emperor.

Madrid, Nov. 12. The Court arrived here on the 8th in perfect Health from the Eſcurial, and are to remain here till the 10th of next Month. Two Days after arrived a Courier from the Conde de Montijo, with a new Plan of Accommodation, which has been offered to and accepted by the Queen of Hungary. Yeſterday came Advice from Don Philip, that Part of the Supplies were arrived, and that the reſt were expected by the 13th, when the Army would conſiſt of at leaſt 25,000 Men, exclusive of two Regiments of Dragoons which march'd lately from Catalonia. It is generally conceived, that our Court has lately embark'd in ſome new Negociations, the Dutch and Daniſh Miniſters having frequent Conferences with the Marquis Villarias, but what the Subject of them can be, nobody here can imagine, unleſs our Miniſters ſhould have taken it in their Heads to procure a Mediation, in order to facilitate a Peace with England. The Duke de Montemar has wrote a very humble Letter to Court, deſiring its Permiſſion to apply himſelf to the King of Sardinia for a Paſſport, but this was refuſed him; and, in truth, his Writing was mere Matter of Form, ſince his Ducheſs and Daughter who have done all that could be done in his Favour, had inform'd him that nothing could prevent his paſſing the Winter in Spain, and that he ought therefore to make himſelf eaſy about that Head.

Frankfort, Nov. 28. On the 23d of this Month there was carried to the Publick Dictature of the Empire a Letter from the Landgrave Louis de Furſtenberg, Governor of Fort Kehl, with a Project of Col. Luttig, who was ordered to inſpect it, for raſing that Fortification, and building a new one. In this Repreſentation it is ſet forth, that it will coſt very little more to build a new Fortreſs, than to put this in a proper State of Defence; and that if then there would be little Reaſon to hope it could continue for any Time, ſince the Inundations of the Rhine threaten it with continual Ruin: For theſe Reaſons it is propoſed to demoliſh it, and all its Fortifications except the great Hornwork, which may ſerve as a Head of a Bridge, till ſuch time as the States of the Empire ſhall reſolve to raiſe a new Fortreſs to cover the River; and in that Caſe the Town of Offenbourg, the Villages of Muhlſtatt and Karg, would be found very conveniently ſituated. There is added to this Relation a compleat Liſt of the Artillery at preſent planted in Fort Kehl, which taken all together, Braſs and Iron, make 23 Pieces of Cannon, and 2 old Mortars. His Imperial Majeſty has lately received another very conſiderable Sum of Money, Part of the Roman Months lately granted him, and it is ſaid he will very ſoon be able to diſcharge all the reſt.

Extract of a Letter written by a French Officer to his Brother.

Neudamboff, Nov. 15 ——— As I have ſeen ſome very odd Accounts in the Gazettes of the taking the Town of Neubourg-am-Wald in the Upper Palatinate, and as I was an Eye-witneſs of that Affair, I will give you a ſuccinct and ſincere Detail of it.

'M. de la Croix having receiv'd Orders to march before the Army, in order to provide for its Subſiſtance in its intended Paſſage to the Danube, had Directions giv'n him at the ſame time to carry off two Companies that were left at Nabourg, to proceed from thence to Neubourg, and to defend himſelf there, in caſe he ſhould be attack'd by the Enemy, till ſuch time as the Army could come to its Relief. On the 30th of October about Two in the Afternoon we arrived at Neubourg; about Three, the Place was compleatly inveſted by the Enemy, and an Officer and a Drum approach'd the Gates. The latter being introduced with the uſual Ceremonies to M. de la Croix, told him, that Prince Charles and Col. Mentzel expected that he ſhould immediately give up the Town, becauſe it was deſign'd for his Royal Highneſs's Head Quarters. M. la Croix anſwer'd, that he had a profound Eſteem for the Prince, and therefore would not hazard the loſing his good Opinion by quitting a Place of ſuch Conſequence ſo eaſily. The Officer being retired, the Enemy made the neceſſary Diſpoſitions for attacking the Place, and obſerving that the Wind blew very freſh from the Suburb by the River-ſide, they fairly ſet it on fire, in hopes that it would catch the Town. We continued firing all Night, and, as our Force conſiſted of no more than 350 Men, we muſt on the Arrival of their Artillery have ſurrender'd Priſoners of War.

'When Day-light came, we ſaw the Enemy marching on the other Side of the Hills about the Town. A little after, a Child of ſix Years old enquired for Mr. la Croix, and being introduced to him, preſented him the following Billet from Marſhal Maillebois.

'I know, Sir, that the Enemy is near you. I have left at Schwartzenfeld M. de Lautrec with 3000 Men. You are wiſe and cautious, take the beſt Way you can to join him.

'In purſuance of this Order, M. la Croix took a Reſolution of leaving his Baggage behind, and making the beſt Retreat he could, which as ſoon as Evening came he perform'd very happily, and join'd M. de Lautrec at the Entrance of a Wood about half a League from the Place, without meeting with any Interruption from the Enemy in his March.'

Dreſden, Dec. 2. The Garriſon made Priſoners of War at Leuthmeritz was of 936 Men, and there was found in the Place 120 Strich of Wheat, (a Bohemian Meaſure, ſomewhat larger than the Engliſh Buſhel) 6750 of Oats, 15,000 of Barley, 750 of Rye, 360 of Rice, 720 of Salt, 5,000 Portions of Bread, 40 Oxen, 7 Tuns of Wine, and 2,000 Truſſes of Hay. We hear alſo, that a Detachment had been ſent to blockade Tetſchen, where they hope to find near as great Quantities of Proviſions as at Leutmeritz, and General St. Ignon was to go the 30th paſt to Melnick, in order to concert with Prince Lobkowitz the Means of reducing Prague, which they hoped they ſhould be able to do ſooner than was at firſt expected; being informed, that the Town is not ſufficiently provided with either Salt, Wood or Wine, for a long Reſiſtance. We have nothing yet deciſive from Bavaria.

Hague, Dec. 5. Our Lords the States of Holland and Weſt Frieſland continued their Deliberations Yeſterday. Some will have it, that they have taken into Conſideration the Plan of Pacification lately drawn up by the Marquis de Fenelon and the Abbe de la Ville, and that we ſhall very ſoon know their ultimate Reſolutions thereupon. Several Directors of the Eaſt India Company are lately arrived here, and this Day Mr. Schagen, who commanded the laſt Fleet that return'd from that Country, made his Report to the States General of the preſent State of Affairs in the Indies. General Debroſſes, Miniſter Plenipotentiary here from the King of Poland as Elector of Saxony, conferred this Day with ſome of the Lords of the Regency on the Contents of ſome Diſpatches which he received by an Expreſs from London, after which that Miniſter immediately ſent away a Courier for Dreſden. There are private Letters from Vienna which ſay, that not only the Duke of Lorrain but Prince Charles has been ſent for from the Army in Bavaria, the Command of which in their Abſence devolves on the Field Marſhals Konigſegg and Kevenhuller.

His Majeſty has appointed the moſt Rev. Father in God John Archbiſhop of Ardmagh, to be one of the Lords Juſtices and Lord Almoner of the Kingdom of Ireland, in the room of Dr. Hugh Boulter, late Archbiſhop of Ardmagh and Lord Almoner of that Kingdom.

Yeſterday being the Day of the annual Meeting of the Royal Society, that excellent Navigator Capt. Chriſtopher Middleton, late Commander of his Majeſty's Ship Furnace, (who was ſent out to diſcover a Paſſage to the North-weſt) attended, when that Learned Body was pleaſed to preſent him with a Gold Medal, in Acknowledgment of his ingenious Obſervations and Diſcoveries.

Yeſterday three Houſes fell down at Hockley in the Hole, by which Accident ſeveral People were killed.

This Morning, between Twelve and One o' Clock, a Gentleman's Servant (a Frenchman) was robb'd, and moſt miſerably cut and abus'd, in one of the many Houſes of vile Fame in Hanging-ſword-alley, Fleet-ſtreet, and had he not been a ſtout Man would have been murder'd. 'Twas remarkable, that tho' the poor Man's Cries of Murder and Watch were ſo violent as to reach the Ears of an honeſt old Watchman in Fleet-ſtreet and bring him to his Deliverance, yet they could not or would not be heard by the Fellow who call'd the Hour by the Door at the time of the Outcry.

Extract of a Letter from Gibraltar, dated Oct. 12.

'Yeſterday came in at the Land Port the Maſter of the Veſſel I mentioned to you, to be taken five or ſix Days ago in ſight of this Gariſon; who proves to be Capt. Totterſhell of the Eagle, who was loaded with Fiſh from Newfoundland. He brings with him 22 Sailors, of his own Crew, and thoſe belonging to the John, Capt. Chriſtopher Betagh, who was taken a few Days ago under Ape's Hill, and carried into Cadiz, likewiſe laden with Fiſh for the Land. Neither of them made any Reſiſtance. Had Totterſhell cut his Halliards Capt. Williams in the Rocheſter might have ſaved him; but he apprehended to be ill uſed by the Privateer, and therefore would not attempt it.

'This formidable Fleet of Privateers which blocks up this Place, and reigns Maſter of the Gutt, by the Information I have from Capt. Betagh, conſiſts of four Xabeques, from 45 to 25 Hands each, and one Barcalonga, of four Carriage Guns, a great many Swivels, and 70 to 80 Hands. They keep their Cruize betwixt Tariffa and Ceuta. This may appear a trifling Force, as in reality it is, but ſufficient, however, to take three in four of thoſe Ships that paſs backwards and forwards.

'Capt. Betagh tells me that in the Bay of Cadiz there was only one Man of War of 60 Guns, which lay as a Guardſhip; and that a Veſſel, which he calls a Galleon, was juſt arrived from the Weſt-Indies, but he is able to give no farther Account of her."

Gibraltar, Oct. 23. 'The Drake Sloop, Capt. Stringer, arrived

'arrived here from Faro the 21ſt. and to-morrow goes 'over to Barbary, to ſee how Affairs ſtand there with 'regard to Health. On his coming from Faro, he pick'd 'up a ſmall Newfoundlander, called the John, Peter 'Hamett, Maſter, and brought her in with him. Lucky 'for this poor Veſſel was it, to come under the Care of 'Capt. Stringer; otherwiſe ſhe would certainly have 'ſhared the ſame Fate as Totterſhell and Betagh did.'
